

## Bayley Short Triple Extension Ladders

Our products are specifically designed to meet the demanding requirements of Fire and Rescue services.

Bayley short TX ladders range from 5.4m up to 7.64m, in 3 section configuration, the swaged rung and box section construction provides a ladder that is both robust and durable.

### Design & Construction

A lighter weight box stile section with fully ribbed surface for better grip with large diameter rungs swaged in place.

The ladders are manufactured from high tensile aluminium alloy custom extrusions giving high strength and rigidity.

### Specifications & Use

We build our ladders to the BS EN1147:2010 standard.

Bayley ladders are the mainstay of Fire & Rescue Services both nationally and internationally
